Founded in 2003 as part of the newly built arts centre, **Oxford House Gallery** is a light, modern and ideally located **East End** space available to rent at an affordable price for solo or group art exhibitions. In fitting with the philosophy of Oxford House **community centre** we welcome artists from all walks of life and encourage first time exhibitors.

Gallery

The gallery at Oxford House spans two levels- the **upper and lower galleries**- from the front entrance a wooden ramp leads down a gently sloping corridor, creating an enticing viewing experience.

Down a small flight of stairs is the lower gallery, with yet more wall space for hanging framed work as well as a covered alcove- ideal for setting up a film projection or installation.

Gallery Hanging System

Oxford House Gallery uses the CLIP-RAIL MAX wall system to hang artwork quickly and effectively. We ask that all artists bring work ready to hang.

If displaying framed pictures or canvas you will need to have already attached two picture hooks to the back of the piece of work. Suitable picture hooks are d-rings or mirror plates with large holes—that will fit hook end of roughly 1cm.

Picture hooks should be attached *at least* 6cm down and 3cm inwards from the top edge of the work.

If your artwork is unsuitable for this form of hanging we can discuss alternative methods.

Below are the measurements in centimetres of the lengths of our gallery walls. All walls (apart from those noted) are fitted with the **gallery hanging system**. There are a number of walls (including some not on this list) that are suitable for hanging smaller works if needed.
